

VitalCloud Health — Security Architecture & Workflow Diagrams

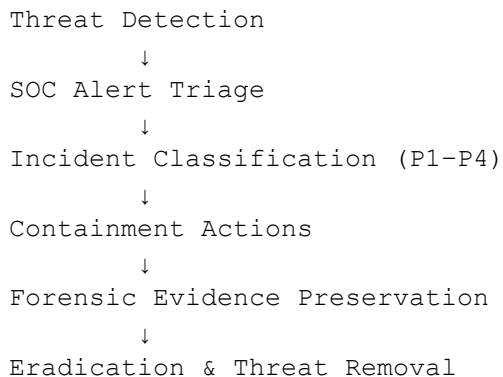

Supporting architecture and workflow diagrams for the VitalCloud Health ISO 27001 & HIPAA Governance, Risk, and Compliance (GRC) implementation project.

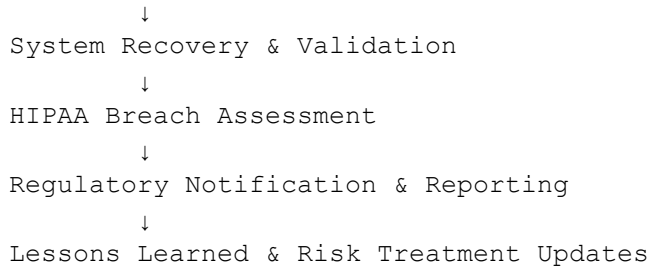

1. VitalCloud Health Security Architecture

This architecture demonstrates the interaction between patients, telemedicine systems, cloud infrastructure, healthcare applications, legacy clinic systems, IoT medical devices, and centralized SOC monitoring operations.

2. Incident Response Workflow

This workflow aligns SOC operations, HIPAA breach handling, forensic procedures, and enterprise incident response coordination.

3. ISO 27001 & HIPAA Governance Mapping

This diagram illustrates how ISO 27001 governance controls integrate with HIPAA security requirements, operational security controls, and SOC monitoring activities.
